

## ***Go on.***

During the past decade this supremely capable motorcycle has given thousands of owners the opportunity to experience supersport-level performance combined with outstanding rider and passenger comfort.

Everything about this advanced sport tourer has been designed to cover serious distances in first class luxury. The 1,298cc inline 4-cylinder engine with shaft drive delivers outstanding performance at the twist of your wrist.

And with its long-range 25-litre fuel tank, aerodynamic fairing with electronically adjustable screen, new cruise control system and adjustable riding position, the new-generation FJR1300A gets you there like nothing else.

- ▶ Smooth 1,298cc inline 4-cylinder engine with YCC-T
- ▶ Sportsbike-type aluminium frame for agile handling
- ▶ Fully-adjustable screen, cowl, seat and handlebars
- ▶ Yamaha D-MODE for softer or hardcore power
- ▶ Easy-to-operate cruise control system
- ▶ Switchable Traction Control System (TCS)
- ▶ Large 25-litre fuel tank for extended riding range
- ▶ Sidecases, heated grips and 12v socket as standard
- ▶ Clean and quiet-running shaft drive system

## ***Keep going.***

Prepare yourself for a whole new experience. Because you will soon discover that this sophisticated sport tourer is much more than the sum of its high-tech components.

With FJR1300A ownership comes a whole new outlook on life. Distance will no longer be a barrier. And those journeys you thought you would never make will now become reality.

Built to cover 1000km or more each day, this remarkable motorcycle opens up a new world of possibilities for you and your partner. Combining sports performance with long-distance luxury, and featuring a fully-loaded standard specification, this motorcycle is ready to take you to a very special place.

### High-performance 1,298cc inline 4-cylinder engine

Featuring a Yamaha Chip Controlled Throttle (YCC-T) for smooth power delivery, the advanced inline 4-cylinder powerplant delivers outstanding sports performance. Its high torque output makes for strong acceleration in all gears - and the impressive top end enables you to cover massive distances without trying too hard.

### Fully-adjustable ergonomics for added comfort

For maximum riding pleasure the FJR1300A is designed to allow easy adjustments to the riding position and aerodynamics. The seat height and handlebar position can be fine-tuned to suit different riding styles - and there's also an electrically adjustable screen and an air management system for added wind protection.

### Advanced electronic control systems

The latest-generation FJR1300A benefits from some of the industry's most advanced electronic control systems. A switchable traction control system (TCS) gives added confidence by preventing the rear wheel from spinning when activated, while the new Yamaha D-Mode system offers the choice of relaxed or sporty engine settings.

### Cruise Control

Touring riders can cover many thousands of kilometres in a few days, and so anything that makes those hours in the saddle even more relaxing has got to be welcomed. Operating between 3rd and 5th gear from 50km/h to 180km/h, the latest cruise control system enhances riding enjoyment and allows the rider to respect speed limits.

### Sophisticated 3-part instrumentation

To complement its sophisticated sport tourer specification, the latest FJR1300A is now equipped with a high-specification 3-part instrument panel. This high-tech automobile-style console includes an analogue tachometer on the left, central digital speedometer and a multi-function dot matrix display on the right.

### Aerodynamic bodywork

For increased riding luxury, every effort has been made to ensure that the FJR's sleek bodywork offers optimum wind protection. For enhanced comfort the latest model benefits from a reshaped windscreen and front cowling, as well as a modified centre air duct, to give improved wind protection while maintaining the bike's effective aerodynamics.

<i>Engine</i>	
Engine type	liquid-cooled, 4-stroke, DOHC, forward-inclined parallel 4-cylinder
Displacement	1,298cc
Bore x stroke	79.0 mm x 66.2 mm
Compression ratio	10.8 : 1
Maximum power	107.5 kW (146.2PS) @ 8,000 rpm
Maximum Torque	138.0 Nm (14.1 kg-m) @ 7,000 rpm
Lubrication system	Wet sump
Clutch Type	Wet, multiple-disc coil spring
Carburettor	Fuel Injection
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh, 5-speed
Final transmission	Shaft

<i>Chassis</i>	
Frame	Aluminium, Diamond Shaped
Front suspension system	Telescopic forks, Ø 48 mm
Front travel	135 mm
Caster Angle	26°
Trail	109 mm
Rear suspension system	Linked monoshock with spring preload adjustment
Rear Travel	125 mm
Front brake	Hydraulic dual disc, Ø 320 mm
Rear brake	Hydraulic single disc, Ø 282 mm
Front tyre	120/70 ZR17M/C (58W)
Rear tyre	180/55 ZR17M/C (73W)

<i>Dimensions</i>	
Overall length	2,230 mm
Overall width	750 mm
Overall height	1,325/1,455 mm
Seat height	805/825 mm
Wheel base	1,545 mm
Minimum ground clearance	130 mm
Wet weight (including full oil and fuel tank)	289 kg
Fuel tank capacity	25 litres
Oil tank capacity	4.9 litres
